DTP is now a dealer for PFADT Race Engineering parts!

Here's a little more about PFADT :

PFADT's philosophy is simple:
start with something great and make it
better.

The C5 and C6 Corvettes are fabulous not only on the street, but also on the track. They know that not every Corvette owner is looking for the same experience from their car so their products are designed to offer the ultimate in adjustability and performance.

Aaron Pfadt is the the guy behind their products. A mechanical engineer by training and racer at heart, Aaron's vision for Pfadt Race Engineering is to create products that enhance a driver's enjoyment of their car - it all goes back to starting with something great and making it better.
