

## 08 Challenger SRT8 Procharger

Updated Wednesday, 26 November 2008

We've recently finished a Procharger install on an 08 Challenger SRT8.

With nothing more than the Procharger and our custom tune we've coaxed 500+ rwhp out of her at a measly 6 pounds of boost.

Lots of room for more there. Click the picture above to see our pictures of the install in the gallery.
